## Work Experience

---

### **Construction Worker**

Connors construction - Springfield, VA

September 2017 to September 2020

Primary task was lead on insulation jobs and crawlspace work.

### **Front Desk Receptionist**

LA Fitness - Leesburg, VA

August 2016 to March 2017

At La fitness my primary job was to help sales by calling anyone who had and overdue payment or calling customers who had yearly plans to persuade them into renewing for another year or two. On top of that I check in all customers and made sure no one ever snuck in or caused problems at the gym.

### **Food Runner/Server**

Leeseburg Public House - Leesburg, VA

July 2015 to May 2016

I helped the servers by running the food to there customers and getting water or any other essential they might have need; including food items, or more chair for a table for example.

### **Barista**

Starbucks - Ashburn, VA

August 2013 to June 2015

As a barista at Starbucks my primary task was customer sanctification and later, after around 6 months, I got promoted to training employees who were new to the company.

## Education

---

### **Bootcamp in Web Development**

George Washington University - Washington, DC

February 2021 to Present

### **Associate's degree in Computer Science**

Northern Virginia Community College - Ashburn, VA

August 2017 to May 2018

### **High school diploma**

Broad Run High School - Ashburn, VA

## Certifications and Licenses

---

### **CPR/AED**

August 2017 to August 2018

Have a CPR/AED certification for when I work at La Fitness. I did have to use a AED for an accident when a customer passed out while working out. I did call 911 before hand to check and make sure that it was the right situation to use it in.
